

This is to let you know that **The Campaign For Responsible Rodenticide Use** - CRRU Irl - together with IASIS will be running wildlife Aware Courses in 2016 as follows

#### **UPCOMING WILDLIFE AWARE COURSES 2016**

**7 April— DAFM Laboratories Backweston Celbridge Co Kildare**

**11 April—TEAGASC Mellows Campus Athenry Co Galway**

**14 April— TEAGASC Moorepark Fermoy Co Cork**

**6 October—DAFM Laboratories Backweston Celbridge Co Kildare**

**10 October — Teagasc Mellows Campus Athenry Co Galway**

**13 October— Teagasc Moorepark Fermoy Co Cork**

Since these courses commenced 151 people have been successfully trained. Becoming an IASIS accredited Wildlife Aware Rodent Pest Management technician is a valuable qualification as more and more companies require that their pest control services are carried out by such technicians.

Applications for places on these courses should be made as soon as possible and ideally not later than two weeks before the date of the course. A course will not take place unless there are sufficient applicants to make it viable so last minute applications may not be catered for.

To find out more about a course contact [ann@iasis.ie](mailto:ann@iasis.ie)

To enroll on a course go to the website [www.crru.ie](http://www.crru.ie) and follow the link on the right hand side. Or go directly to [www.iasis.ie](http://www.iasis.ie) and enroll.

Best wishes

Eanna Ni Lamhna
